IMMEDIATE RELEASE

Ambir Technology, Inc. Introduces Certification with CAPSYS Technologies

Ambir Tested and Certified with CAPSYS Technologies

Wood Dale, IL – August 28, 2020 – Ambir Technology, Inc., a global leader in USB powered portable scanners and high-speed desktop scanners, is now certified with CAPSYS CAPTURE software suite, providing clients even more digital capture and data utilization options for document processing.

Ambir Technology, a global leader in sheet-fed and ADF scanner products, has announced their certification with CAPSYS CAPTURE, providing world class image capture, document recognition and document processing for increased customer workflow automation. Using the trusted CAPSYS CAPTURE functionality that clients count on in conjunction with Ambir scanners offers users a wide assortment of scanner options that fit any environment and budget.

CAPSYS offers web-based data and document capture software that enables increased access to information anytime and anywhere you need it. With efficient data retrieval and strong storage security, CAPSYS solutions offer your organization the benefits of a scalable information management system that makes data and document capture easy.

Ambir hardware products deliver professional grade ID card and document scanning solutions that provide your organization with un-matched product versatility, customer support, and value across your entire enterprise. With comprehensive and efficient digital imaging solutions, Ambir enables clients to digitize and maintain materials with ease.

So, whether you're scanning at your office, from home, or on the go, you can be sure your items will be scanned quickly, accurately and securely. With applications across a wide variety of
