

Creating a quick and smooth process with vertical card scanning. Fast, one second scanning for both sides of IDs and insurance cards. Beautiful image quality in color or grayscale. And it takes up even less desk space than your current scanner.

The nScan 690gt is ideal for use in customer, patient or guest facing services. Its unique design is well suited for patient registration areas and use on mobile carts in healthcare.

#### **USB-Powered.**

Because it's powered by your computer's USB port, you'll never search for an outlet or carry a bulky AC adapter again.

#### **Straight-to-PDF Scanning.**

With included AmbirScan Lite capture software, users can scan directly to industry-standard PDF format and save to any folder on your PC, network or popular cloud services including: Box, DropBox, Microsoft OneDrive, Evernote and Google Drive.

#### **Broad Compatibility.**

The included TWAIN driver ensures compatibility with thousands of software applications and hardware systems.

#### **Professional-Grade Quality.**

Durable and reliable for commercial applications like hospitals, medical offices, banks, trucks, manufacturing, loading docks and busy points of sale.

## Optimal Card Handling.

Patient IDs, insurance cards, driver's licenses, Medicare cards and more. The nScan 690gt handles them all with ease so you can quickly and conveniently scan cards without worry.

## Superior Performance.

Advanced image processing captures clear, crisp images in seconds while remaining true to color. With clean and vibrant scans, you'll be able to better utilize and store the information you collect.

## Front Facing Eject Mode.

Cards and documents are scanned and ejected at the front of the scanner. No more reaching around the back of the scanner.
